## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments filed on August 30, 2007 have been fully considered but they are not persuasive. Claims 1-18 are currently pending.
2. Claims 1-18 are rejected under U.S.C §102(e) as being anticipated by Jeon (US 2004/0066848, hereinafter Jeon).
3. The applicant's argument is that Jeon does not teach inter-prediction, but teach intra-mode issues. The examiner respectfully disagrees. The following reasons express the reason why the current application is not persuasive.
4. In response to applicant's arguments, the recitation, "the present invention provides a method for determining a first and second reference picture used for inter-prediction of a macroblock" has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).
5. Jeon also discloses inter-prediction methods that are recited in the rejected claims. The applicant is referred to paragraphs [0081]-[0093] in the reference, Jeon. The reference discloses a process to calculate motion vectors in the temporal frames. Motion vectors are inherent is temporal reduction methods between two frames.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
